" Artificial Intelligence"
Semester II &IV
Seminar conducted by Entrepreneur Development Cell

Day & Date: Saturday, 19th January,2019   Time: 10.00.am to 1.00 pm
No. of students registered: 85   No. of Students absent: 45

The Entrepreneur Development Cell organised a seminar for SEM -II and IV on "Artificial Intelligence" on 19th January,2019 under the guidance of Dr. Rajendra Patil, Director, MM BGIMS. This seminar was conducted in Room no 206/207.

The prominent speaker for the seminar was Dr. Poornachandra Saarang.

Aim of the seminar: To create awareness among the students about AI, its advantages and its application in different fields like medicine, economics, military, engineering and more. Dr. Saarang also shared about his three-decade experience and his contribution in the field of AI.

Feedback:
The program was very insightful with a lot of information on AI. The students enjoyed the session thoroughly and came out with a deeper understanding of science of the future.

The New Era of Artificial Intelligence

Artificial Intelligence, also called AI, has been a buzz word of the recent times. The field of AI has made mind-boggling advances in several aspects of our lives. This talk will take stock of various advances, its implications on our current and future lifestyles. One major worry for we human beings is, will this so-called Intelligence take over the mankind some day? Should we believe in Life 3.0 - an emerging technology that may be able to redesign its own hardware and internal structure? Attend this talk to get answers to these questions and the speaker's views on the insights of our future in the era of Artificial Intelligence.

Speaker Profile

Dr Poornachandra Sarang in his long tenure of 35+ years has held several positions in the industry and academics as well. He has been a consultant to many top-notch corporations worldwide and has architected several major IT projects. Dr. Sarang has been the most sought after speaker in several International conferences and has delivered keynotes in major events across the globe. He has been an author of several international books, research papers and journal articles. He has been a professor at Univ. of Notre Dame and Univ. of Mumbai. He has guided several post-graduate projects and has been a Ph.D. advisor in Computer Science.
